**TechSource Inc. Receives its Sixth Honor as one of
New Mexico's Fastest Growing Companies**

Los Alamos, NM—TechSource is once again honored to be selected as a 2017 New Mexico Flying Forty awardee by Technology Ventures Corporation. This award marks the fifth time in seven years that TechSource has received this distinction. The New Mexico Flying 40 awards annually honor the 40 fastest-growing and highest revenue-generating technology companies headquartered in New Mexico.

TechSource is a leading high-technology science and engineering small business offering recognized expertise in accelerator physics, nuclear sciences, engineering, systems engineering integration, and program and project management. TechSource's talented and innovative cohort is comprised of experts, most with 35 years or more of hands-on experience. TechSource offers policy to test bench technical and management services in coordination with point of interest expertise to organizations responsible for developing, implementing, operating, and managing high-technology programs nationwide. For over 20 years TechSource has successfully supported a diverse and expanding client base including U.S. Federal Agencies, the National Laboratories, the Navajo Nation and commercial entities, focused on solving some of the most complex issues facing the U.S. today. TechSource is recognized as an independent, qualified expert whose advice and products uniquely and effectively bridge technical and programmatic requirements.

TechSource CEO V. Brian D'Andrea is pleased that company has once again received recognition for its growth and success, "This honor directly correlates to our unwavering dedication to exceed client expectations and highlights our greatest asset—our people. Our people's expertise, agile response, and ability to develop and deliver the best answers for each customer's unique technical, program, and management requirements is, I believe, unmatched anywhere. Our clients know we get the job done and that when they need to fill talent gaps to achieve mission-critical goals leveraging TechSource's unique and proven skillsets is the most effective means of ensuring success. Currently we have an above industry standard 98% retention rate for follow-on contract work, proving when you put the customer first, success follows."

The Flying 40 awards are sponsored by Albuquerque Journal Business Outlook, KPMG LLP, New Mexico Bank & Trust, Technology Ventures Corporation, and the Sandia Science and Technology Park Development Corporation.

About TechSource

Founded in 1997, TechSource is comprised of over 500 senior level engineers, scientists, and leaders from the national laboratories, Federal technology programs, and the nuclear industry. TechSource is recognized as an independent, qualified expert whose advice and products uniquely and effectively bridge technical and programmatic requirements.
