TechSource Rated Exceptional by GSA

Los Alamos, NM. We are pleased to announce that the General Services Administration (GSA) awarded an “Exceptional” rating to TechSource on their latest Administrative Report Card. TechSource received the rating of “Exceptional” based on its highly successful efforts administrating and complying with GSA regulations. The rating of “Exceptional” recognizes what our clients already know – TechSource is a top service provider and an unparalleled trusted partner.

For over 15 years TechSource has delivered exceptional management and technical solutions for some of the most complex challenges facing our nation. TechSource provides expert technical and management services to organizations responsible for developing, implementing, operating, and managing high-technology programs and projects. Our clients and GSA recognize TechSource as experts of the highest caliber in accelerator physics, the nuclear sciences, program and project management, system engineering and integration, enterprise architecture, and throughout all the engineering disciplines.

In order to receive the highest rating of “Excellent” from GSA on an Administrative Report Card a contractor must comply to all administrative and contractual requirements outlined in each contract, provide the right product and service, deliver on time, and the service must be procured at or below contract price. GSA’s definition of success also includes full compliance with all contract terms and conditions including record accuracy, lowest pricing options, and timely delivery.

TechSource CEO Brian D’Andrea shared his appreciation of the award, “I am extremely proud that GSA has recognized the outstanding efforts and dedication of our administrative and contracts staff who have worked tirelessly to exceed our customer’s expectations in every way. This rating firmly places TechSource as a premier provider under the GSA contracts.”

For additional information about the award or interest in using the GSA PES Schedule please contact Brian D’Andrea at 505.998.1726 or at bdandrea@techsource-inc.com.
